Photo Restoration Kwik Guide by Gary W. Clark

You don't have to be a pro or pay a pro to make those faded, torn family photos look like new again with this handy guide. The author guides you through the steps using Photoshop Elements for making repairs. By the way, if you haven't tried Photoshop Elements lately, it gets better with each new edition.

Slides and Negatives: Digitizing and Protecting Your Vintage Film by Gary W. Clark

Most of us have plenty of slides and negatives stuffed in envelopes or boxes for storage. Some we inherited, others we created. This book shows you how to clean and scan the negatives, then archive the originals.

Publish a Photo Book: A Step-by-Step Guide by Dina C. Carson

It's a shame not to do something with all those photos you collected and digitized through the years. Sure, you will use some in a family history, but that still leaves a lot that should be published. The author guides you through the process of publishing a photo book, beginning with photo selection, followed by page layout and eventually publishing.
